

Debriefe. Rewind 2021 with Fe group Communication is an essential support for FE Group's management.

To share the information concerning the life of the company and innovations in the most efficient way, we will regularly send a summary of the last events and stories.

Happy reading !

DECEMBER 2021

The site in Flavignysur-Moselle underwent two sensible extensions in 2021.

Since production capacity grows each year to meet the demand on our ever-growing market, a new car park and a modular building have been built. Of course, the acquisition of Movex enables us to develop and expand on European territory with a subsidiary that makes quality and innovative products in Spain.

The AWP market grows and develops ; so does FE Group.

Extension and **growth**

Events galore

After such a difficult year, being able to participate in fairs delighted FE Group teams from France, Germany, Belgium. Matexpo, JDL, Mecateameetings, Platformers' Days, GIS, SMOPYC.... Tens of thousands of visitors in attendance, numerous demonstrations, occasions to highlight specific or under-represented vehicles. It is always a pleasure to attend these events.

The group had many occasions to travel far and display many vehicles in European exhibitions.

Let us celebrate together birthday and holidays

What would be FE Group without its subsidiaries and its hundreds of employees?

FE Deutschland celebrated its 10th anniversary in April; the branch in Salon de Provence was renovated. An inauguration that was worthy of the work that had been done was organized to celebrate. Management thanked FE employees several times during the year. First through a nice meal in summer and this month with gift bags distributed to the whole company in all of Europe. The growth that FE Group experiences would mean nothing without our employees and our clients. Thank you everyone for making this company thrive!
